

Excursion to Silverton.

As per announcement by the members of the Brownsville and Colburg lodges I. O. O. F., on Tuesday morning last the regular train left Brownsville with seven cars loaded with people in the happy anticipation of a pleasant day's picnicking at Silverton.

At Silverton the party, numbering about 400, was met by Silver Lodge No. 21, headed by the Silverton, Silver Cornet band, and a large number of other persons, numbering probably 1,000 people, to their hall, where, for a few moments, handshaking and social brotherly greeting was indulged in.

On this occasion, as on all others, where good things to eat are a part of the programme, the ladies of Brownsville and other places showed they were masters of the situation. One department of the baggage car was allotted to baskets, filled to overflowing with dainty and substantial edibles, which would have been more highly enjoyed in the beautiful groves as was anticipated than at the table beneath the Old Fellows' hall; but a shower, just at noon, unfortunately changed the contemplated picnic into a dinner.

After dinner the procession was again formed, and to the music of the band, marched over the crystal waters of Silver creek to the church where the oration by Judge J. J. Walton, of Salem, and other exercises were indulged in which were impressive and entertaining.

This, so far as the anniversary exercises were concerned, completed the programme, and the excursionists, for a short time, "took in the town," visiting the several places of interest. There are some very pleasant looking residences in Silverton. It is an old town and bears the resemblance of having seen better days.

We would not forget to say that the management of the excursion, on the part of the railway officials, was in every respect satisfactory. We are glad to say that Silverton was in charge of Conductor Poorman with Engineer Franzen, and was on time at all the stations. On the return, C. N. Bennett was in charge of the train and the proceeding was very agreeable with nothing to mar our pleasure but one or two of those fellows who imagine they "can't" have a good time without insulting ladies and gentlemen. We are glad to say these parties referred to, did not hail from Brownsville or Colburg. Neither are they of the respectable people of Seio.

The Work Commenced.

Scio, April 23, 1887.

ED. EXPRESS:—We have commenced the fight on the prohibition amendment, as our old resident, Joab, used to say "in the forks," and from now until November next we intend to keep the matter agitated and hope by that time that every elector shall have well considered the simple proposition—Is spirits or malt liquors, when used as a beverage, a benefit to society.

A prohibition league was organized at this place with the following officers: J. L. Miller, president; F. J. Villa, secretary; B. Pentland, treasurer; twenty-five members signed the roll, and several others expressed themselves in favor of the amendment.

We had a rousing meeting April 18, 1887, at 1 o'clock P. M. Quite a number spoke and a more earnest set of voters could not have been collected in any place. We were assisted by quite a number from Mount Pleasant and each contributed his mite by way of argument and influence. Among the speakers were Rev. Mr. Woolley, Ben. H. Irvin, Mr. Parker, J. C. Johnson and a number of others.

In the evening a meeting was held under the auspices of the W. C. T. U. The church was crowded. Rev. Woolley delivered a lengthy address which was full of sound reasoning, and the subject was handled in a fair and impartial manner. Several members of the league made five and ten minute speeches. The audience was favored with several prohibition songs by the Seio club, and last, but not least, were the songs and speeches by the little folks, which were very entertaining, and we hope the training may continue and the old adage prove true: "Train up a child in the way he should go, when he is old he will not depart from it." So just count us in on the prohibition question from first to last.

F. J. VILLA, Sec.

M. arriving at Albany at 7.35 P. M., connecting with train coming to Lebanon which will arrive at 8.50 P. M. From Albany parties to go to Portland and return same day. In addition to the above we are to have a train to leave Albany at 12.50 P. M., arriving at Lebanon at 1.50 P. M., leaving at 2.30 P. M. going to Albany and returning same evening at 8.56. Trains will run as above every day including Sunday.

A Rare Curiosity.

Among the attractions at Silverton on Tuesday last, was a wee little Chinaman—just one month old. It was indeed a curiosity. We witnessed a lot of excursionists discussing its merits and wondering why its "daddy" did not put the sign "museum" over the door and charge an admittance fee of five cents, and make the thing financially interesting. One of them said it was the funniest thing she had ever seen. Another declared it had no ears, and another was surprised to see its mother take pains to keep it from crying, etc., etc., while another indignantly remarked if that was the kind of things the Chinamen were introducing into this country, the sooner they were made to "go" the better.

Alliance Call.

The next regular meeting of the Linn county temperance alliance will be held at Seio, commencing on the evening of May 24 and closing on the evening of May 25. All organizations entitled to send delegates will please take notice and do so. The programme will be published in due time.

The farmers are taking advantage of the fair weather to sow their spring wheat, a necessity which has been delayed by the prolonged spring rains; in some sections very little grain having as yet been put into the ground. The young folks of this place proposed to have a surprise dance at a certain place, on the 22d, but failed. They were bound to have a dance, so they went to Sam's. Happy Home Items.

The school is progressing nicely under the management of Mr. Coeand.

Divine service was held at the school house by Rev. Fitzwater on Sunday last with quite a good attendance.

Mr. Burtenshaw is giving his residence a new coat of paint, both in and out side, which considerably improves the appearance of his place.

Farmers are all busy putting in their crops with anticipation of a good return in harvest, when they shall reap the golden grain. Therefore they are happy.

Almost every year there are large crops of flax raised in this vicinity for the Salem oil mills, the company furnishing the seed and then taking all the crop at from \$1.25 to \$1.50 per bushel which pays quite well here, as the land is well suited to flax culture, some places producing 15 or 25 bushels per acre. This year the company have shut down for repairs and are not letting seed out, so the farmers will have to go back again to the old standard—wheat.

Game is plentiful and the hoot of the grouse is responded to by the drum of the pheasant. The Chinese pheasants become so very numerous that the farmers are complaining of them destroying not only their grain but gardens also. One farmer asserts that they utterly destroy his garden and that he has been obliged to burn his right of these pests in his garden at one time, and within a stone's cast of his house. It is plain they are a curse to the farmer and should be protected no longer. So the Chinese man was above right when he said "bye-and-bye Melican man no like." It is said that the meat of the old birds is very tough and unfit for food. KRIT.

Saltina Mine.

It is currently rumored that a gravel mine has been discovered in Southern Oregon and sold for \$50,000 or \$60,000 to a "moochasin" who had been bailing for that purpose. Rumor connects the name of an ex-proprietor of the St. Charles with the fraud, and it is said that the Jackson county grand jury are looking into the matter. The modus operandi was to buy \$500 of gold from various adjacent mines and salt the lumps. So the Chinese man was above right when he said "bye-and-bye Melican man no like." It is said that the meat of the old birds is very tough and unfit for food. KRIT.

Divine Services.

The following are the appointments for to-morrow (Sunday): Rev. P. M. Starr at the Santiam Academy morning and evening. Rev. C. A. Woolley, at South Brownsville C. P. church, morning and evening.

G. F. Mead, at Middle Ridge 10 o'clock A. M. and at Rock Hill at 3:30 P. M.

Waterloo Items.

April 29. J. W. Carns is almost on the sick list. Mr. McBride is plowing for Mr. Vall.

Marion Glass is working for Eugene Elm, below Lebanon. Mrs. S. D. Gager has gone to her husband east of the mountains.

Mrs. J. B. Gibbard has gone east on a visit, and may be gone a year. J. Albert Gibbard has left us. He has a job moulding brick at Corvallis.

Mr. and Mrs. Gilbert Carns, of Mabel, are visiting their father and mother at this place.

Lill Devine has filed on a piece of government land just above Waterloo. His intention is to pre-empt it.

Mrs. J. B. Henniger has been quite sick with malaria fever, but understands for a day or so she has been improving.

George Gross has commenced to prepare for the summer by improving the appearance of his grounds. Others should do likewise.

It is gratifying to learn that Henry Salmarsch has improved in the last few days. I think as soon as this cold, damp weather breaks up he will be around again.

Jessie McClure, of Silverton, made a flying visit to his father's, going up on last Saturday and coming back on the stage. Monday. His brother accompanied him home.

Mr. Fannie Mills is making her home with her father, since the death of her husband a few days ago. She has the sympathy of a large circle of friends in her sad bereavement.

It would seem that bad colds are, at the present time, around here both epidemic and epidemic, as nearly every one has a good large one. Several are calling for a change of venue.

Farmers are about done sowing grain. Everybody desires to see some good weather pretty soon, so they can do their gardening. Grain looks much better than it would suppose.

Johnny Carns has not been well this spring, being bothered with a cough. Notwithstanding this, he thinks he can beat any one in the district pitching horse shoes. Your correspondent believes it.

George Klum has completed his shed. Uncle George has laid a good pattern, and I expect to see several follow it. Farmers should prepare to put up feed, for we can even have snow in the Willamette valley.

School is progressing finely. We have 22 names on the roll, and they are the names of industrious boys and girls, who realize that their school is a business institution, one in which they are individually interested, and one in which they form an integral part and in which the daily programme is not a luxury but a real necessity.

H. Y. Gibson has the contract to carry the mail from Lebanon to Sweet Home, via Sodaville and Waterloo, and is now running a tri-weekly back on this route. He makes his trips on time and the way his horses step up it will be a pleasure to travelers on this route to have him, as he is prepared to take them comfortably and at reasonable terms.

Checkers is the all absorbing game here. We have two champions, G. W. Klum and Elijah Salmarsch, and a few amateurs. Some of the amateurs feel like they were standing on a sheet of paper, and rush in on one of the old men and scatter things, but just as the wretched lot is dressed, the amateur turns out that Mr. Amateur is left. Your correspondent don't (seldom) play checkers. Never (seldom) gets left.

Improvement is the watchword here and we began at the school house. The intention is to fence in and clear up the school house grounds and put a pump in the well. John Carns and Isaac Salmarsch were to build the front line of fence; this they have nearly completed, only lacking two or three rods. The remainder will be finished soon. The pump is on hand and will be put in as soon as the water goes down and the well can be cleaned. A FISHER.
